SEPTEMBER START UP

On the first day back, students will return to their previous classroom to reconnect after summer. The rest of the first week, we will be completing various activities in our Learning Communities. This allows us to work with all our students, have them meet our teachers and make the best possible placements for the remainder of the year.

Classes will be set on the **MONDAY** following the first week back. We will share more information and a map the last week of August so you and your child know what to expect.
